## EXPERIENCE

### Software Engineer I | Quinbay Technologies - Blibli

July 2023 - Present, Bengaluru, India

- **Developed Android app in native Java** for an Indonesian e-commerce firm with **1M+ users**, focusing on core features.
- **Used Jetpack libraries (Compose, Navigation, LiveData, ViewModel, Room, etc.)** across **10+ modules** for smooth and efficient development.
- **Implemented Coroutines + Flow** to handle **100+ async tasks/sec**, ensuring responsive UI.
- **Built scalable Spring Boot backends**, integrating with **2 SQL and 1 NoSQL DB**, handling **50K+ daily requests**.
- **Led Android app revamp**, reducing load time by **2.5s** and increasing crash-free sessions to **99.8%**.
- **Integrated Firebase tools** (Crashlytics, FCM, Event Tracking, Realtime DB) to monitor and analyze **5K+ user events/day**.

### Python developer Intern | Enthu Technologies

May 2021 - June 2021, Coimbatore

- **Built Python scripts to process 3K+ IoT sensor data/day**, boosting system efficiency.
  - **Integrated REST APIs for 50+ devices**, cutting data lag.
  - **Automated workflows and alerts**, reducing manual checks by 70%.
- 

## PROJECT

### Blibli Instore | Quinbay Technologies - Blibli.com

[play.google.com/store/search?q=blibli%20instore&c=apps&hl=en\\_IN](https://play.google.com/store/search?q=blibli%20instore&c=apps&hl=en_IN), October 2023 - Present

- **Led Android app revamp**, improving load time by **2.5s**, boosting user retention by **5K+ users**.
- **Used Jetpack tools** (Compose, Navigation, LiveData, etc.) across **15+ screens** for efficient UI/UX.
- **Handled 100+ async tasks/day** using Kotlin Coroutines and Flow for smooth, responsive performance.
- **Integrated Firebase (Crashlytics, FCM, Event Tracking, Realtime DB)** to monitor **5K+ events/day** and enable push for **50K+ users**.
- **Maintained code quality across 100+ commits**, resolved **100+ bugs**, and delivered **30+ new features** with ongoing production support.

### Blikanvas | Quinbay Technologies - Blibli.com

December 2024 - February 2025

- **Built PWA hybrid android app & JS callbacks**, enabling **cross-platform support across 3 platforms** and reducing average response time by **1.2 seconds**.
- **Integrated location tracking and camera features**, increasing user interactions by **400+ per month**.
- **Optimized backend configurations**, cutting deployment time from **10 mins to 6 mins**.
- **Designed scalable architecture for Blikanvas**, supporting **50K+ media files** and improving load speed by **1.5 seconds**.

### Blihire | Quinbay Technologies - Blibli.com

[careers.blibli.com/](https://careers.blibli.com/), December 2023 - January 2024

- **Built Spring Boot backend** for Blibli Careers page, supporting **10+ job listings**.
- **Integrated PeopleHum HR platform**, automating **10+ job posts** and tracking **candidate records**.
- **Designed 30+ REST APIs** for frontend and third-party sync, ensuring scalable and maintainable hiring flow.

### Blibli-retail android application | Quinbay Technologies - Blibli.com

[play.google.com/store/apps/details?id=blibli.mobile.commerce&hl=en\\_IN](https://play.google.com/store/apps/details?id=blibli.mobile.commerce&hl=en_IN), September 2023 - January 2023

- **Joined 100+ agile ceremonies** (sprint planning, stand-ups, retros) to align with project timelines.
- Conducted code reviews and contributed to continuous integration pipelines to ensure delivered features aligned with project specifications, applying Kotlin and version control systems including Git.
- **Contributed to 50+ code reviews and tests**, ensuring quality delivery of **100+ user stories**.

### Finolog | Self-Initiated Project

[finolog-tracker.web.app/](https://finolog-tracker.web.app/), July 2025 - Present

- **Built a personal expense tracker app** to manage **monthly transactions** and real-world financial needs.
- **Developed Android & Web apps using Flutter**, ensuring cross-platform use across **3+ device types**.
- **Integrated Firebase backend**, enabling real-time sync for **200+ users** across **10+ countries**.

### DIWidgets | Open Source Contributor

[pub.dev/packages/dlwidgets](https://pub.dev/packages/dlwidgets), June 2023 - July 2023

- **Created a custom Flutter design package**, used in **5+ projects** to streamline and standardize UI development.
- **Built 10+ reusable components** by extending Flutter's core widget library, improving dev speed by **12+ hours/project**.
- **Shared scalable design solutions** with the Flutter community, supporting **35 downloads** and growing adoption.

**Bulk Editor | Open Source Contributor**

[pypi.org/project/bulk-editor/](https://pypi.org/project/bulk-editor/), June 2023 - August 2023

- **Built a Python-Tkinter automation tool** to bulk-generate **300+ personalized certificates**, cutting manual effort by **3 hours/event**.
- **Designed for real-world use**, automating name entry for **50+ participant batches** with improved accuracy.
- Enabled template selection and real-time preview.

**Bynit Fashion | Quinbay Technologies - Blibli.com**

[github.com/Hari-Nikesh-R/bynit-member-auth](https://github.com/Hari-Nikesh-R/bynit-member-auth), <https://github.com/Hari-Nikesh-R/bynit-cart>, <https://github.com/Hari-Nikesh-R/bynit-order>, <https://github.com/Hari-Nikesh-R/bynit-gateway>, <https://github.com/Hari-Nikesh-R/bynit-product-service>, August 2023 - October 2023

- **Built Spring Boot microservices backend** as a POC for a **Myntra-like platform** with **core services**.
- **Integrated Spring Cloud Gateway** for routing and service discovery across **12+ APIs**.
- **Implemented auth with Spring Security**, supporting **3 user roles**.
- **Connected services to Redis, MongoDB, and PostgreSQL**.
- **Enabled inter-service communication** via **Kafka** and **Feign clients (12+ endpoints)** for seamless data flow.

---

**EDUCATION**

**Bachelor of Engineering | Sri Eshwar College of Engineering**

8.920, Coimbatore, Tamil Nadu, India, 2023

- Awarded **Best Alumni Student Mentor** for outstanding mentorship and contribution.
- Secured a **scholarship under the Sports Quota** for athletic excellence.
- Participated in the **Vishwakarma Hackathon**, showcasing innovative technical solutions.
- Achieved a **Top 5 position in the Safer India Hackathon** for developing impactful safety-focused solutions.

---

**INVOLVEMENT**

**Co-organizer | Oracle India | Bangalore Java User Group**

September 2024 - Present

- **Delivered a technical talk at JavaFest 2024 as the youngest speaker**, sharing insights with an audience of **500+ developers** at Infosys Campus, Bengaluru.
- **Collaborated with 10+ industry experts** to organize the event, expanding Java community reach across **15+ regions**.
- **Managed event coordination, digital marketing, and outreach**, helping attract **800+ attendees** from **40+ institutes and companies**.

**Co-organizer | TamilNadu Java User Group**

September 2024 - Present

- **Co-organized Java event with TNJUG**, reaching **50+ attendees** across Tamil Nadu.
- **Handled logistics, promotions, and outreach**, engaging **10+ institutes/companies**.
- **Facilitated 1 tech sessions each month**, strengthening Java community in Tamil Nadu IT regions.

---

**SKILLS**

Kotlin, Java, Python, Dart, Flutter, Android Development, Jetpack Compose, Mobile Engineering, Spring Boot, FastApi, Flask, Llama, LLaMA, HuggingFace, LangChain4j, Javascript, React (Basics), MoMongoDB,ostgreSQL, Kafka, Redis, Cognito, S3, EC2 instance, Amazon Simple Notification Service, Amazon Simple Queue Service, Amazon Simple Email Service.
