- GitHub Actions / CI-CD automation
- ADF migration, code review, and performance tuning

JOB RESPONSIBILITIES:

- Migrate ADF pipelines to Azure Synapse
- Redesign Power BI data transformations
- Build and optimize PowerApps smart forms
- Support deployment automation and code improvements

SOFT SKILLS:

- Excellent verbal and written communication skills
- Excellent interpersonal and conflict resolution skills.
- Strong analytical and problem-solving skills.

- Adaptable and flexible
- Organized and keen to details.
- Can work well within a team.
- Has the initiative and self-drive
- Able to work independently and under minimal supervision.
